Trains That Never Stop lunning.

From Answers.

A new system by which psengers may be taken on or from train without the necessity of stopping has ben recently devised by an ingenious engirer, who proposes to exhibit his plan athe Paris exhibition of 1999. From Answers.

libition of 1906.
This feat is accomplished 7 means of a This feat is accomplished? means of a moving station platform. The inventor proposes to use for the purse a circular disk, the outer circumferent of which is to travel at the same rate; speed as the passing train. When enterit the platform from a staticase in the cder there will be no danger, since the spel at this point is comparatively low, norvill it be felt much when going toward is edge of the turning platform, for the irrease in speed is gradual and anticipated. The inventor has alreadygone so far as to caiculate that the raway companies of Europe would save me thousands yearly by abolishing the nices, "Wait until the train stops."
